Death Recalls March to Washingto in 1894 of "Gen." Coxey's Army of the Unemployed.

"Then shall the dust return to the earth as it was; and the spirit shall return unt God who gave it."

This Scriptural verse, taken from the welfth chapter of Ecclesiastes, seventh verse, tells a strange story in the life of Cast Browne, chief lieutenant on "Gen: Coxey's army," who died in Washingto uddenly Friday afternoon.

He often said he cared not where he was buried, if his body were intered in a grave, or where his ashes were scattered, if his remains were cremated. Bu tered, if his remains were cremated. But Carl Browne will not sleep in a potter's field, neither will his ashes be scattered to the four winds. Representative William Kent, of California, will see to it that neither of these things happens. So far none of Browne's relatives has come forward to claim the body. "Gen." Browne was a faithful reader of the Bible. He would often quote scriptures to his friends, and in his speeches referred to the "Good Book," as he called ferred to the "Good Book," as he called it. One of his favorite quotations was the fourteenth verse of the eighty-ninth Paalm: "Justice and judgment are the habitation of thy throne: mercy and truth shall go before My face."

At the Capitol the straggling mob of "unemployed" was met by a strong array of uniformed men. A troop of cavalry was held in readiness at Fort Myer in case of a riot call. Coxey attempted to speak from the steps of the South wing of the Capitol. Just as he mounted the steps and pulled from his pocket his "address to the multitude" he was grabbed by a burly policeman. Carl Brown had part of the crowd at the North wing of the building. He was told he could not speak, and when he attempted to assert

SAYS EUROPE WANTS WAR.

Benjamin C. Marsh, secretary of the New York congestion committee and war correspondent in the Balkans for the New York Globe, spoke at the National Press Club last night on "Why Europe Wants War in the Balkans."

Mr. Marsh declared that the Christian powers of Europe need to keep the Balkan states in a state of conflict for the benefit of the financiers and manufacturers of England, Germany, and the other great powers. He stated that the German Socialists, perhaps the strongest anti-militarist force on the continent, were Nationalists before they were Socialists, and probably would yield to the war spirit in the course of time.

The present Balkan situation, Mr. Marsh described, as very black, but he thought a possible alliance between Servia and Bulgaria might stave off war for several years, if not permanently.

Grave Fears that The Hague Conference Will Be Allowed to Go by Default.

There is grave danger that the conference will be permitted to go by de-fault, unless some government acts promptly. While the second conference at The Hague in 1907 recommended that the third conference be held in 1915, no definite arrangements were made for its definite arrangements were made for its convening on that or any other date. The peace advocates in Europe, but more particularly in the United States, are much alarmed over the apparent indifference of the European powers, and are looking to the United States to take some step which will insure that the conference be held.

time been giving his attention to the
crisis confronting the proposed conference, and yesterday conferred with
Secretary of State Bryan in regard to
it. He had previously discussed the
matter with other officials of the administration, and indicated his desire
that the United States take action
promptly less the conference be postpromptly, lest the conference be post-poned for lack of any initiative effort. It is probable that the action of the United States will take the form of a note to all the powers signatory to The Hague conventions, reminding them of the last conference's recommendation that another conference be held in 1915, and seeking to obtain their agreement to a meeting next year, as planned.

Meetings Called Tomorrow.

In the interest of this movement a meeting will be held in New York tomorrow for the purpose of considering ways class of the city. Pupils wishing to go and means by which favorable action up for examination will make application to eighth grade teachers or superernments. Senator Root, Andrew D. visors. White, Nicholas Murray Butler, and others prominent in the international peace movement, will be among those present at the meeting. It is expected that resolutions caling the attention of the world to the fact that the conference is supposed to be held next year, and asking that action be taken by the United States and other governments will be adopted. The second conference also asked that

The establishment of a garden city on the outskirts of Washington to provivde healthy, attractive, homes for persons of moderate incomes, was urged by Richard B. Mr. Watrous described a trip which he and representatives of the American Civic Association made to Germany last summer to study the operation of garden cities.
